Facing death from shot and shell in the civil war was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough, that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 175 pounds." BRUCE MARCUM, whose name has several times been mentioned in these columns as an aspirant for the position of postmaster at Jackson, grows stronger every day. He now has the indorsement of two Grand Army Posts, viz: R. E. Bowling, Post No. 135, and Elijah Clay, Post No. 168. He has the indorsement of eleven of the fifteen Republican county committeemen, the Jackson Deposit Bank, Breathitt County Bank and First National Bank. Backing up these home institutions and Republican officials, he has two petitions, signed by the most influential Republicans of Jackson and Breathitt county on file in Washington City, and a third petition is being signed by prominent citizens every day. He has strong letters of indorsement from U. S. Marshal Asbury Patrick and Republican Committeeman Walter S. Hogg, beside a strong letter from Hon. A. T. Wood, Pension Agent for Kentucky. The Danyille Laundry and Dry Cleaning Co., Danville, and the Navan Laundry Co., Lexington, also recommend him for the place, showing that he is also popular away from his native home of Jackson, where he was born August 5, 1876. With all these indorsements and appeals from the best Republicans in the land, we cannot see how Congressman Langley can fail to recommend him for the position. As a Democrat it is probably not in order for us to espouse Mr. Marcum's cause, but we do it on purely personal grounds. We think he needs the emoluments more than the other aspirants, that he is as well qualified, and that if awarded the place he will prove worthy in every respect. Indeed, under all circumstances, we should like to see the other aspirants withdraw their applications and acclaim Bruce Marcum their choice nor do we believe they would ever have cause to regret such action.

SOME weeks since we stated that the prevailing high prices for all food stuffs was in a great measure due to the fact that the farmers are unable to supply the demand, especially for cattle, hogs and sheep, owing in many cases to his inability to secure farm help. And the fall off in the supply of hogs alone bears out our assertion. Taking seven of the leading live stock markets of the country, we

Listen Delinquents!

For 25 years March 4, 1910, we have labored faithfully for the moral and material development of the mountains, of which we became a citizen February 6, 1885. Several times we have been offered handsome free donations to move to other places, but in all instances declined. We knew we could get more money by moving, but we had become attached to the people here and here we have remained despite all offers, however handsome. Now, are the patrons of THE HERALD as faithful in return? In some cases we must admit that they are. But too many hold back and delay when time to renew rolls around. You know we need the money to run the paper, and why do you hold back? Pay up promptly and we can meet our bills promptly, pay our printers and buy paper. Come in and pay up at once, or if at a distance send the money by mail.
DO IT NOW! TODAY!

find that in January, 1910, the supply of hogs was 48 per cent lower than during the corresponding month of 1908. During January, 1909, these same markets showed 31 per cent more hogs on hand than January, 1910. As the Hon. Dan Vorhees, of Indiana, once said, "We must raise more hogs and less hell." To put it plainly, raise hogs and feed them the corn instead of letting the cereal go into whisky and create crime. But who will raise the hogs? The farmers of this state are tobacco wild and so long as this situation obtains but little attention will be paid to Mr. Hog, or the fact that his absence is tough on humanity, generally.

In the Right Place.

Bush T. Castleman, an old confederate soldier, and an insurance agent at Lexington when we were in business there in 1876, is now steward of the Confederate Home at Pee-wee Valley, and from a personal acquaintance extending through several years, we predict that he will prove "the right man in the right place." Mr. Castleman was born and raised in Lexington, where he married, but he has for 25 or more years been a citizen of Louisville, where he was first in the clothing business and for the last seven or eight years in the restaurant business. We congratulate the old "Johnny Rebs" that they have "Bush" with them, for he will do to tie to. The Confederate Home Messenger, published in the interest of the Confederate Home, says of him:

"Mr. B. T. Castleman, who has been appointed steward by the board, comes well trained for the service after seven years' experience with Benedict & Co., one of the finest caterers of Louisville. He served in the Confederate army in Co. B, 8th Ky. Cavalry, Gen. John H. Morgan's command. He has a genial, happy disposition, cordial and kind to all, and we bespeak for him a kindly reception by his old comrades and an assurance of most acceptable service."

Stallion Show Day.

The many breeders of this section will be glad to learn that all men who have stallions for service this season will bring their horses here Saturday, April 9, 1910, as is the custom in the blue grass. This exhibition of the horses will enable prospective breeders to see the good points of each individual horse. They can then compare pedigrees and the individual merits of each horse and make up their minds to which they will breed. This plan is bound to result in the best for all parties, and it is hoped every man who owns a stallion within 15 miles of Hazel Green will have his horse here that day. Don't forget day and date—Saturday, April 9.

H. G. A. Notes.

The girl circle rendered their program in chapel last Thursday morning. They showed that they had taken great pains and given the subject much thought.

Miss Miller gave a banquet at her table Monday night to those who had not been tardy during the term. But those who had not been were surprised when they saw that those who had been had a better table than they. J. S. T.

Two or three good bunches of cattle are camped at L. G. Stamper's this week. They came from the upper counties, and will soon hit the road for the Mt. Sterling market before the tariff is reduced. March 14. POET.

"There's Nothing in It."

There are a good many newspaper readers who say this about their paper frequently. They will glance over the headlines and find no great calamity recorded will not be satisfied. The full significance of the complaint, "the nothing in it" has no doubt never been realized by those who make it. It means that no home or business house has been destroyed by fire, no struggling firm has failed; no one has been murdered; no one has been hanged; no one has been haggled by the train; no mother's boy in a drunken frenzy has become a criminal; no home has been shattered by a scandal.

"There's nothing in it." No, nothing that feeds the taste for sensationalism, and the newspaper is dry and uninteresting.

But is it not better so? If it takes crime, calamity, sorrow, suffering, falsehood, viciousness to make it have "something in it" is it not better that it is dull?

But this is the criticism of those who feed on sensationalism. There may be many columns telling of national and state legislation, educational advancement, religious endeavor, conservation movement, crops, municipal progress and hundreds of wholesome topics, worthy the study and consideration of every reader who appreciates the responsibilities he owes himself, his family and his state. "There's nothing in it." It is often a blessing that there is "nothing" and especially a certain kind of "nothing."—Cattletown Tribune.

Proclaims Arbor Day.

Frankfort, March 10.—Governor Willson today issued an Arbor Day proclamation to the people of Kentucky, calling upon them for the observance of the day, which is April 8. He says:

"Let us all get together and all plant trees and all ask everybody else to plant trees and let us have a special meeting on the 8th day of April, 1910, in every school-house and other good places for meeting to talk over how to have more trees, how to make every place more beautiful, how to plant the waste places with trees that will bring wealth by and by, how to save something for the people fifty years from now who won't have any wood if we do not do something about it."

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Then take it or not, as he says.

Ayer's

Bilious attacks, sick-headaches, indigestion, constipation, dizziness, these are some of the results of an inactive liver. Ask your doctor if he endorses Ayer's Pills in these cases. The dose is small, one pill at bedtime.

Judge George Wheeler left Monday for Menifee county to survey some old Virginia land grants.

Hon. W. O. Mize has the thanks of the editor and his better sevenths for a fine mess of mountain oysters.

Monroe Wallin and wife, of Gilmore; Miss Lucy Nickell, of Grassy creek, and Miss Ida Nickell, of Red river, left Monday for Illinois.

The infant child of Floyd Rose and wife, of Ezel, died last Friday night, and was buried Sunday in the O. W. Cecil family graveyard.

Bert Nickell, who has been living at Middletown, Ohio, for a year or more, is again in Hazel Green, but it was not learned just when he arrived.

Mrs. Pearl Davis and sister, Mrs. Lou Jones, both of Illinois, came in Thursday of last week to be with their mother, Mrs. A. F. Johnson, who is not expected to live.

D. C. Miller and wife, of Campton, visited the latter's parents, on Grassy, Sunday, and attended the burial of their little nephew, the infant son of Floyd Rose and wife.

Edgar Kash, of Landsaw, was visiting his brother, C. F. Kash, Sunday, and tells us that work on the Mountain Central railroad will begin just as soon as weather conditions permit.

A Great Educator Gone.

Henry Barker, of Grassy Creek, dropped dead Monday evening about sundown. Mr. Barker was 78 years of age and had devoted his life to education. He had taught school two hundred months, which divided into school years of five months each make forty years that he devoted to education. A great many of the older citizens of Morgan county were pupils of some of the schools he taught, and they all unite in saying that he was devoted to his profession and a fine old gentleman. He was probably the best historian in Eastern Kentucky, in the mountains at any rate. He was also a fine vocal musician. Lived always a consistent, upright life, and had a host of friends, who will mourn his demise with sincere sorrow. He leaves five children, among whom Rev. Johnny Barker, of Stillwater, and George and Dudley, of Grassy Creek. The two first are the only ones known to the writer. Apoplexy was the cause of his death. He was buried at the home graveyard, a very large assemblage attending the obsequies. As stated in the caption, "A great educator is gone," and his memory will be revered by all who knew him, especially those to whom he was preceptor during his long professional career.

Has Moved Away.

Dr. G. M. Center is this week moving to the old Fielden Cox homestead, in the Cox Mill neighborhood, where he will continue the practice of his profession. Dr. Center and family have lived among us for many years, during which time they have made many friends who are loth to see them leave. Mrs. Center and her estimable daughters will be missed from the social circle as well as the doctor in his profession. But their best of friends console themselves with the thought that they will not be so far away but they can be seen frequently and the further fact that while Hazel Green is losing Toliver and vicinity will gain by their removal. THE HERALD wishes the doctor and his family peace and prosperity in abundance.

Death of Miss Rose.

Miss Mattie Lee Rose, daughter of Hon. Joseph P. Rose and wife, near town, died Wednesday (yesterday) morning between 3 and 4 o'clock, of consumption, aged 19 years. Miss Mattie had been sick and confined to her home a major part of the time since Christmas, 1908. She bore her suffering with christian fortitude and seemed to know that the end was not far distant. Funeral services were held at the home this morning, Rev. John Barker officiating, and the remains will be laid to rest in the old Rose graveyard on Lacy creek at 1 o'clock this afternoon. Mr. Rose and his family have the sympathy of all in their bereavement, in which THE HERALD sincerely joins.

Moves to Montgomery.

Samuel Wheeler, of Morgan county, has purchased of A. Bert Wyatt his farm near Camargo, Montgomery county, containing 140 acres. Possession will be given within ten days. Sam Wheeler has been a resident of the village of Caney, in Morgan, for years. In fact, we believe it is his place of nativity, and Morgan county has several times honored him with office. His mountain friends will regret that he goes from among them, but they are glad to know that he is able to own so good a home as the one just purchased.

A Successful Trader.

W. T. Swango has sold to Clayton Howell 45 acres of land near Ewington, in Montgomery county, for \$95.50 an acre. Possession at once. Mr. Swango will move April 1 to Winchester, where he has purchased property. At the sale of the personal property of Swango corn in the crib brought \$3.90 per barrel. Mr. Swango formerly lived here and his many friends are glad to know that he is prospering. He has been especially fortunate in his land deals, making a good profit in every transaction.

Sam Wilson is this week painting the home of Dick Long. Those needing Sam for painting purposes can address him at Hazel Green.

Miss Hines returned Friday last from Lexington, where she had been for the past two weeks under medical treatment for bronchial trouble.

James Wilson and James Little passed through town Tuesday with a bunch of 45 mixed cattle, yearlings and aged, for the Mt. Sterling market next Monday.

Jim Stamper, of Stamper branch, who was last week mentioned as taking suddenly sick, developed a case of pneumonia. Dr. A. C. Nickell is attending him, and reports him as improving nicely.

Nelson Chaney and family, who have lived in Hazel Green for some months, on Tuesday moved to his farm in Morgan county, and Harlan McClure, who has been living in Mrs. Emma Evan's house, will move to the house vacated by Chaney.

One of Crook Coldiron's gray horses was badly cut on all four legs Friday by jumping through a barbed wire fence. The boy who put the horses in pasture separated the pair, and the one hurt was trying to get to his mate when he went through the fence.

Cecil Bros. have a new advertisement in this issue, to which attention is directed. They are in receipt of a new stock of goods just purchased, which will be sold at rock bottom prices. Read their ad and price their wares, if you wish to save money.

George Dyer says that Hon. Bill Perry, our representative, wrote him a few days since that he had a job for him. Further inquiry was to the effect that George is to be conductor on a street car in Lexington, the salary being \$45 per month. Don't know when George is to take the job.

Owen Coldiron, of Laurel, has bought a farm of 100 acres from William Brown, on the Long branch of Slate creek, in Montgomery county, for \$1,000. He with two daughters and two sons will remove there this week, while his wife and son, Dave, will run the farm on Laurel this year. The farm just bought lies near Slate bridge.

George Robinson, son of Greenbury Robinson, has a severe case of pneumonia, and Dr. Andy Nickell, who is attending him, told "Our Man About Town" Monday that this is the second case of pneumonia Robinson has had this winter, the other case being about Christmas, and has developed in the same lung, from which he is spitting blood freely.

Mapel & Troy, milliners, have a new ad in this issue, to which the attention of our lady readers is directed. They have a new stock of ready made waists, dress goods, novelties, and a line of ladies' hats unsurpassed for uniqueness in trimming and material. Their opening will begin April 23 and run to the 26th, inclusive, giving all a chance to inspect before investing.

THE HERALD regrets very much that inadvertently it last week failed to mention the serious illness of Mrs. Robert J. Rose, the venerable mother of John H. and Joseph A. Rose, of our town. "Our Man About Town" was fully apprised of her condition, but being just as fallible as other mortals he overlooked the matter until too late. Mrs. Sewell Rose, the wife of our Stillwater correspondent, is also on the sick list.

John Robinson, of Lacy creek, is blind from a growth of cataract upon his eyes, and an operation will be necessary to restore him to his sight. Jimmie Dyer started out Thursday and Friday and made up \$16.77 to have the operation performed, which will be done at Lexington. It was intended to take him away Tuesday, but he will not go until the first of next week.

KENTUCKY KERNELS

Carefully Collated and Concisely Chronicled.

W. P. Stafford, a Carlisle blacksmith, was fined \$60 and given ten days in jail on a charge of selling whisky in local option territory.

Through the explosion of gas in the range in her home, in Lexington, Mrs. George Neal was severely burned about the face and head.

John C. C. Mayo, of Paintsville, sold to an eastern syndicate a tract of valuable coal land in the Big Sandy valley for \$1,300,000 cash.

A 15 year-old girl was placed in jail at Flemingsburg on a charge of forging a \$100 check. She admits getting the money, but says she did not know it was a crime.

Fire in the store room of the Union Garment Co., in the female department of the Frankfort penitentiary, one night last week, caused a loss of several thousand dollars.

In some sections of Nicholas county farmers are losing a great deal of tobacco by thieves. From one locality between 6,000 and 7,000 pounds were carried off by night prowlers.

Sam Martin, an aged and wrinkled white man, was held over to the grand jury by Judge Evans, of Winchester, for detaining the 9-year old daughter of Walter Jones against her will.

Allie Allout, aged 10, who was run down by an L. & N. train, near Covington, and suffered amputation of both legs, was awarded \$19,000 damages by a jury in the Kenton Circuit court.

Smallpox has appeared at the Western Kentucky Asylum for the Insane, at Hopkinsville, but only one case has developed. Mrs. Sarah Johnson, of Caldwell county, is the afflicted person.

Timothy A. Field, of Ashland, who was appointed to succeed Sam J. Roberts, of Lexington, as collector of internal revenue for the Seventh Kentucky district, will assume the duties of the office in September.

Bath county will be 100 years old January 15, 1911. It was formed out of Montgomery county January 15, 1811. There is some talk of suitably celebrating the centennial, and it is suggested that one feature of the event be a homecoming of all ex-Bath county people and their descendants.—Bath Co. World.

Roads are bad enough in the mountains, but one of the streets in former Latonia, near Covington, caps the climax. A crew of linemen were driving along repairing the telephone line, when the horse sunk in the mud until it was nearly covered. After working three hours with ropes and boards the crew rescued the horse with much difficulty.

Judge Evans, of the Federal court, sitting at Owensboro, scored the attorneys for settling the case of George Lear, of Muhlenburg county, out of court. Lear had brought suit for \$30,000 damages against a number of prominent citizens, alleging they had whipped him and drove him from the state. His attorneys compromised the case for \$100.

Because Rev. M. E. Dodd, of the First Baptist church, at Paducah, refused to let Mrs. Charles E. Graham, who had been divorced from her first husband, sing in the choir, her present husband, Count, Clerk Graham, thrashed the minister as he was going to church Sunday morning and was fined 1 cent in Police court next day.

John Orend, aged 48 years, who for six years had charge of the coal elevator at the L. & N. shops, at Louisville, met with an accident last week, which cost him his life. His clothing caught in the bucket chain and was carried upward, but the opening was too small to allow the body pass through. The clothes were torn and he fell to the ground, 40 feet, breaking his neck. Death was instantaneous.

Don't throw away and abandon your granite, enameled or porcelain lined cooking utensils or dish pans just because there is a small hole in them. Bring them to THE HERALD office and see how neatly and cheaply they can be made good as new.

Ellis Johnson lost about 200 panels of rail fencing Sunday afternoon from a fire which was started by one of Ellis Johnson's boys and one of Willie Johnson's boys. Harlan Trimble also lost several panels of fence from the same fire.

"I keep Dr. Miles' Anti-Pain Pills on hand all the time, and would not think of taking a journey without them, no matter how short a distance I am going. From my own experience I cannot praise them enough."

MRS. LOU M. CHURCHILL,

WHAT OF LIFE?

By James S. Tester, a Student of Hazel Green Academy.

We are all in possession of life. We are face to face with its problems. We are trying more or less to solve those problems.

And we are all in search of that something in life that will make living thoroughly worth while.

This "something," however, is not a profound secret beyond the search of the many. It is not beyond the reach of anyone; it fact, it is already very much alive within the minds of everyone, and it may be fully described in the word, "Progress."

Continual advancement is the royal path to health, happiness, peace, harmony, power, and prosperity.

It is progress—progress in all things, progress every day and every hour that makes life worth while.

The only satisfying life is the advancing life. Human nature desires increase, increase in all things. And to promote progress the first essential is to have a definite goal, a goal that contains everything that a complete life can wish for; the second essential is to desire to reach that goal with a desire so strong, so continuous and so persistent that it becomes an irresistible power in every thought and action. The third essential is to direct all the forces of minds and body toward that goal.

This is the secret: Know what you want, desire what you want, and work for what you want.

Anyone can form resolutions, and carry out his resolutions if he desires. What we have the power to originate, we have the power to apply in practical action.

Fate is a natural result of your desire. What is to happen to you in the future will depend upon what you desire in the present.

Your strongest desires determine how you are to act, how you are to work; and also what field of attainment and achievement you may enter.

Present desires build future tendencies, future inclinations, future ambitions, and future capabilities.

In brief, you will grow and develop, live and work along the line of your strongest desires.

Never lose faith in the race. It is the shortest route possible to unhappiness, failure and want. Think great thoughts. Nourish your mind with the best you can provide. Great thoughts lead to great deeds. It is the shortest route to greatness, ability and power.

Live in the upper story of mind, thought, feeling, and purpose. There is nothing worth while in the lowland. The glory and splen-

dor of life is found on the heights. Keep your feet upon the earth, but your head in the clouds.

The thoughts you think are the seed you sow. Your harvest will be accordingly. Do not feed your mind upon waste product, provide your mind with the best you can and your mental powers will respond by being and doing their best.

Thoughts lead to habits; and habits produce character, or lack of it. Select the thoughts you want, and you will build the character you want.

Deafness Cannot be Cured
by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

Help the Editor.

If your wife licks you come in and let us see your scars and tender sympathy through the paper; give in all the commonplace news. In short whatever makes you feel proud, sad, homesick or glad submit it to our 24 karat wisdom and see our matted locks part and stand on end with gratitude, which will pour from every pore like moisture from the dew besprinkled earth.

School Suffrage to Women.

The bill granting school suffrage to women has been passed by the Senate by a vote of 17 to 12. Senator Claude Thomas presented and urged the bill in the Senate.

In the House the bill was referred to the Committee on Suffrage and Election of which Harry G. Meyers, of Covington, is chairman, the other members being Marion F. Pogue, G. G. Frazier, Frank J. Brown, R. D. Hunter, J. W. Claypool, W. H. Shanks, W. F. Welch, J. M. Blair. It was a foregone conclusion that this committee would not report the bill favorably. An effort to get the bill to another committee was blocked by the opposition. The one active friend of the women's cause on the committee was R. Dillard Hunter, of Clark county. Mr. Hunter secured sufficient votes to report the bill without expression; the chairman finding this to be the case adjourned the committee. Thereafter, without holding a meeting of the committee he succeeded in getting the signatures of all members of the committee except Mr. Hunter to an adverse report.

The friends of the measure, believing from the first it had been referred to the Election committee for burial, beat every effort to getting the bill reported before the Rules committee took charge, whether favorable, without expression of opinion, or unfavorable. Mr. Meyer was finally "smoked out" and made his unfavorable report the day before the Rules Committee took charge. Mr. Hunter offered a minority report. A motion made by Sidney Clay, of Bourbon, to adopt the minority report was lost by a vote of 37 to 46. This was the first effort made in the House to substitute a minority for a majority report; a vote to discredit a committee was a severe test to put the school suffrage measure to. Had it been referred to a favorable committee there is little doubt that it would have passed easily.
